Workshop: Nutrition-sensitive Fish Agri-food Systems in Zambia
24th – 25th February 2020
Protea Hotel, Lusaka, Zambia

Background
The IFAD- and European Commission- funded project: Managing Aquatic Agricultural Systems to Improve Nutrition and Livelihoods, which aims to scale up nutrition-sensitive fish production approaches developed and introduced in Bangladesh, to support poor, rural households in targeted communities in Cambodia, Zambia and Indonesia.

In Zambia, the goal of the project is to implement nutrition-sensitive fish production approaches to increase availability, access and consumption of micronutrient-rich small fish to improve food and nutrition security in targeted communities in Luwingu District, Northern Province, Zambia.

Purpose
This workshop is organized to review, evaluate, propose new approaches and follow up actions from the project. Two policy briefs developed for Zambia will be discussed and finalized.

Participants
We look forward to engaging with thinkers, influencers and implementers from the Government of Zambia; research institutes, CGIAR centers, UN agencies, and international and non-governmental organizations in Zambia as well as from other African countries.

Session Themes:
• Nutrition-sensitive fish agri-food systems
• Project implementation and lessons learned
• Policy briefs for Zambia
• Further scaling up in Zambia and Sub-Saharan Africa
